PROFESSIONAL EXPERIENCE

Front-end Developer
Social cults. | 01-2023 - Current

- In this company, my role and responsibilities mirror those of my previous position as a Landing Page Developer for the real estate sector.

Front-end Developer
Digital Rubix. | 12-2021 - 10-2022

- "I am the Landing Page Developer for the real estate department in this company. My primary responsibility involves creating and optimizing landing pages specifically tailored for the real estate sector. I collaborate with various teams to ensure that the pages effectively showcase properties, engage visitors, and drive conversions. My role also includes staying updated on industry trends and incorporating best practices to enhance the overall user experience on our real estate landing pages."

PROJECTS

Clinic Management System
Developed a Clinic Management System using React and Firebase with feature of Login, Logout, register a patient, view patient data on records and MIS page to check with one date to another date.

Hospital Management System
Developed this HMS project with some feature to show the admitted patient on home page, Register OPD and IPD patient, Billing system, Lab Entry for IPD ,OPD & direct patient and MIS page etc. Using React and Firebase.

Snake Game
Developed a Snake Game Web App Using JavaScript with background music.

Landing Pages
I have created different landing pages for Real State and also for practice purpose. You can check in my portfolio.
